# Auto Body & Collision Repair

## Quality Starts With The Right Attitude.

Full Tilt has been voted Best of The Valley in Auto Body & Collision Repair since 2013 for one reason: We consistently deliver quality work that surpasses industry standards and the expectations of our customers. Your car doesn't leave our shop until it meets the standards we expect for our own families.

## Our Collision Repair Process:

1. Customer drops vehicle and picks up loaner or Enterprise rental
2. Thorough vehicle check-in with 360° pictures
3. Blueprint and damage analysis process
4. Research all OEM procedures pertaining to the vehicle
5. Communicate with insurer / customer about extent of damage
6. Order all necessary parts for repair
7. Vehicle undergoes repair procedure
8. Quality control to verify vehicle is restored to exact OEM specs
9. Final inspection to ensure vehicle has been fully detailed and meets our strict standards prior to customer delivery
